National PTA Mission:

The overall purpose of PTA is...

“To make every child’s potential a reality by engaging and empowering families and communities to advocate for all children.

CCKK-8 PTSA Mission:

The purpose of the Coal Creek Canyon K-8 Parent Teacher Student Association (CCC K-8 PTSA) is to:

- foster communication between the home and the school
- provide opportunities for parents to play a part in their child’s education
- enhance the educational atmosphere and experience at CCC K-8

The PTSA does this by partnering with the CCC K-8 staff to organize parent classroom volunteers, sponsor assemblies, underwrite field trips, develop after-school programs, coordinate teacher appreciation activities, lead community events, and raise funds to make our school the best it can be.

2015 - 2016 Goals:

We challenge ourselves to:

- Have Eagle Eyes volunteers present at least 70 school days under this new male participation program before the end of this school year. When men are involved in school, children learn more, perform better in school, exhibit healthier behavior, have fewer discipline problems, are more likely to participate in extracurricular activities and enjoy school more.
- Offer at least one new and different method of fundraising than those we have offered in the past. Taking advantage of a year that the school has more discretionary funds than usual, we will experiment with at least one new method of raising funds to support the ways that we typically need to support the school. These funds are critical in most years to fulfill the mission of the CCKK-8 PTSA of bringing enrichment opportunities to the school and supplies for the teachers or facility. As part of this goal, we could explore different kinds of events, formal raffle / bingo capabilities or other alternative fundraising means. This opportunity may replace one of the other fundraising efforts we usually have offered in the past, but we commit that we will not fulfill this goal through finding another product to sell. – GOAL MET
- We will develop and implement three new resources for increasing communication between classrooms and the students’ families in order to help with different ways and means of learning. We believe that by making tools available and by improving communication between school and home, it will result in better performance. We hope to help support students’ families who struggle with specific content areas or are looking to enhance their depth of knowledge in a specific content area. We will work with the teachers and school staff to help identify these resources. Improved communication attention may be focused around topics like homework, curriculum, learning goals and measurement of performance. At the end of the implementation, we will gather feedback from teachers, students and families about the impact of the added process or resource
